Panaseer and PwC UK for continuous Cyber Risk Monitoring

Market leading Continuous Controls Monitoring (CCM) technology combined with the leader in cybersecurity consulting services.

The challenges

Continuous and accurate measurement, monitoring and reporting of cyber risk is not easy. Many organisation struggle with:

- Point-in-time, subjective and irregular cyber risk measurement and reporting.
- Bringing together numerous disparate data sources.
- Lack of trusted data.
- Selecting the best metrics to measure and report on.
- Manual efforts to generate risk reporting.

How we can help

- Provide a robust trusted set of metrics, prioritised by risk, and tailored to the technical capabilities and maturity of your organisation.
- Automatically ingest data from existing IT and security systems that enable continuous and accurate capability assessments through proven and pragmatic cyber risk data models.
- Customise pre-built cyber risk dashboards and integrate with existing risk reporting processes and tools.
- An optional risk reporting managed service wrapper is also available.

Correlation

Automatic, continuous view of assets and controls

Dynamic reporting and metric automation

Security translated for business stakeholders

Key benefits for you

- Helping to reduce the risk of cyber incidents, fines, and spending excessive time and money on reporting and compliance.
- Improve overall risk posture with exec reporting dashboards that includes continuously updated, accurate, good practice controls assurance metrics.
- Get a holistic and quantitative view across the entire technical security landscape.
- Equip your team with robust risk modelling and scoring to make risk-based diagnosis and decisions.
- Focus your team's precious time & skills on core security strategy, rather than laborious manual data manipulation and reporting.
- Prioritise investments based on risks that matter the most to maximise ROI from risk reduction initiatives.

Market leading technology

Panaseer pioneered Continuous Controls Monitoring for automated security metrics and measurement, Gartner's latest high benefit security and risk management category.

Cyber Knowledge

We have access to PwC UK's One Cyber community for the latest cyber security insights. We bring a team of Global Cyber Risk Analytics SME's to augment exec and strategic cyber reporting.

Automation

Capability to connect to automatically any security, IT, business source

We've got you covered

About Panaseer

Panaseer is the first Continuous Controls Monitoring platform for enterprise security. It helps businesses make informed risk-based security decisions. The company is aiming to become the security measurement platform of choice for security, risk and IT leaders that are shifting to data-driven programmes. Its clients include the world's largest financial institutions and critical infrastructure enterprises.

Panaseer recently scooped the award for 'Best Regulatory Compliance Tools and Solutions' at the SC Awards Europe in 2020. Its total funding to date is $15.6 million and backers include Evolution Equity Partners, Notion Capital, Albion Capital, Winton Ventures, Paladin Capital Group and Cisco Investments.
